Airwalk Enigma

During the early 90's [Airwalk](#) represented advanced technology and style that was purposefully designed for skateboarding. And one of the pinnacle designs from Airwalk is the Enigma. Previously the reissues were only released as a Japan exclusive and were not sold anywhere else in the world. However the tide has changed and now these will be available in US and Canada. Airwalk will be celebrating their 25th anniversary this year and the Enigma is reworked with a custom footbed for extra comfort. The lightweight sneakers are constructed with smooth leathers and suede for durability. Fans can get onto the [Airwalk online store](#), which will be the only place the Enigma is made available.
