Airwalk brought a limited stock of Prototype 540s ..As you may remember, the Prototype 540 by Airwalk took on a life of its own in the early 90s. With its Velcro “lace saver” flap, skaters lessened the chance of blowing out laces during forceful sessions on the pipe or cruising the pavement. The innovative high top is just as fresh today as it was back in the day, making the Prototype a must-have for all sneaker heads on the prowl for old school cool.
