Looking for a provocative challenge on the links? Pronghorn private golf resort community near Bend, Oregon, unveils their Tom Fazio championship golf course in August. One of the more technical and difficult courses Fazio has ever designed, the Pronghorn boasts unique hazards including a recently discovered lava-tube (large enough for a Suburban to drive through) and a 45-foot canyon, both on hole 8. The 18-hole course accompanies the resort's world-renowned Jack Nicklaus course, making Pronghorn the first and only private golf community in the West to offer both. *For more information please call 800.541.9424 or visit pronghornclub.com* —JC
